# T-Tuning kit TC Doffer Suction System reduces cuts and increases your productivity

Fewer sliver breaks, higher raw material yield, more consistent production flow

## Cotton Ring Carded Yarn

This suction hood is a MUST. It gives:

- The number of cuts are halved
- Up to 10 % higher efficiency during winding
- Reduction of Classimat errors
- Improvement of yarn quality by reducing splices

## Cotton OE process

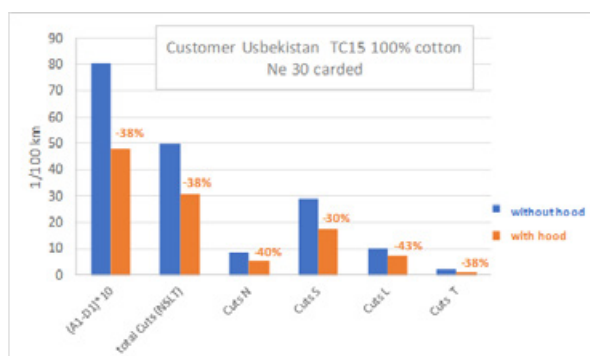

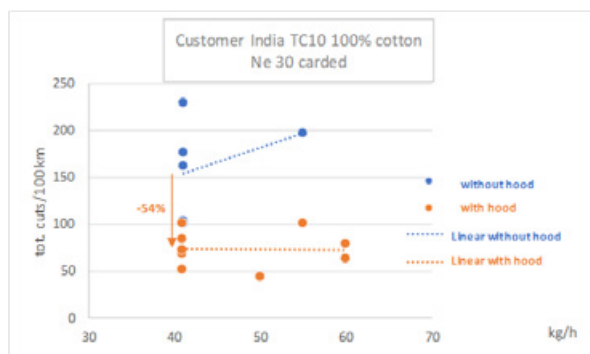

30% reduction in Classimat Faults.

## Combed process

Please contact us for more information.

- Professional retrofitting in Trützschler quality
